

Shopify Plus Retail Operations Suite

Your Inventory Isn't the Problem. Your Operations Are.

Fix the systems behind inventory, purchasing, and reporting—before they start costing you real money.

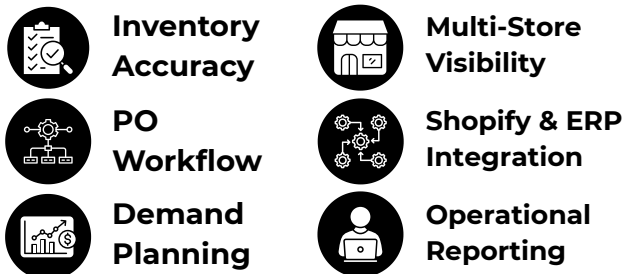

If you don't fully trust your inventory... you don't fully control your business. Most retailers are scaling on **broken operations**.

We fix that.

Sound Familiar?

- Inventory numbers are **unreliable**
- You're **overstocked & out of stock**
- POs live **everywhere**
- No **single source of truth**
- Reporting still feels **wrong**

What we Fix

What's Actually Broken

Inventory → Purchasing → Reporting → Growth

When these don't work together, you lose money.

- Stockouts → **lost revenue**
- Overstock → **trapped cash**
- Bad data → **bad decisions**

We fix the system behind all of it.

What Changes After

- ✓ **You Trust Your Numbers**
Make decisions without double checking everything.
- ✓ **You Buy Smarter**
No more guesswork or reactive purchasing.
- ✓ **You See Everything**
All stores, inventory, and purchasing in one place.
- ✓ **You Stop Firefighting**
Fewer surprises. Fewer "how did this happen?" moments.
- ✓ **You Actually Scale**
Operations that support growth, not slow it down.

If your inventory feels off, your operations are already costing you.

Let's fix it.
